BRIDGE STREET RAIL OVERPASS NIGHT WORKS AND TEMPORARY CHANGES TO TRAFFIC CONDITIONS

The substructure for the new Bridge Street rail overpass is scheduled to be installed from Tuesday 27 December 2005 to Friday 30 December 2005.

To minimise disruption to rail services, this essential activity will require some work out of the normal construction hours.

For this period work is currently scheduled on the following days:

- Tuesday 27 December from 4.30am to midnight.
- Wednesday 28 December from midnight to 11pm.
- Thursday 29 December from 7am to 5pm.
- Friday 30 December from 7am to 5pm.

Every effort will be made to minimise the impact of works. Noise and vibration will be monitored in accordance with the project's environmental management plan.

Bridge Street from west of the Schubach Street roundabout to west of the rail underpass will be under traffic control during this activity. Bridge Street will be temporarily closed and reduced to a single lane at times in the interests of safety.

This activity is necessary for the construction of the freeway and rail overpass at Bridge Street.

Motorists and pedestrians are asked to observe all signage and traffic control directions to ensure public safety.

Abigroup regrets any inconvenience caused by this temporary change to traffic conditions.

If you would like more information about the construction of the Albury Wodonga Hume Freeway, Ettamogah to Murray River, please call the Abigroup community information line on 1800 674 934.
